

animago 2019: Extended Deadline For Submissions

The deadline for submissions for the animago 2019 has been extended by one month to the 31st of July 2019.

Until then, projects from the world of visual effects, 3D animation, CGI and more can be submitted on the website www.animago.com. This year, the best international works will be assessed by a top-class jury in a total of ten categories.

As in the previous years, no participation fee will be charged for submitting projects to the animago event and submissions can be made conveniently via the website. The number of entries that can be submitted to the competition is unlimited. Both pictures and films can be submitted. A requirement for participation is a significant computer-generated amount, whereby a combination with real elements is permitted.
